

The Friendly Bulletin

Published by the High Point Friends Meeting since 2020
Week of May 22, 2022

Home Edition

Vol. 113

We have decided to continue this Bulletin for a while because many of us are still at home.

Some Things to Try

Play a board Game on Memorial Day

Write a letter and send it in the mail

Look up the history of maps

Trim the bushes, do the edges

De-clutter one room

Organize the carport/garage

Find 1 thing for the "GO BOX"

Meditate for 10 minutes

Make a Gratitude List

Don't forget your 15 minutes of Sketching

Google ART Question

What is the difference between Graphic Design and Illustration

The Funnies/Did You Know

Hedy LaMarr

is often called "The Mother of Wi-Fi". She invented frequency-hopping technology during World War II to enable secure communications for the Allied forces. It became one of the cornerstones of today's wireless systems.

During WWII

a British game company known as Waddington PLC changed several monopoly games by sticking silk maps into the game boards. Also, they shuffled real money in with fake ones and added new playing pieces like a working compass. The unique games were then shipped to war prisoner camps to assist prisoner's escape

Paper

was invented from hemp by the Chinese, around 100 B.C. Later, they started creating paper using other forms of plant fibers such as bamboo and tree bark. Papyrus served as a writing surface prior to the invention of paper.

The Oldest World

Globe on record dates back to around 1,500 and is engraved on the surface of an ostrich egg. It also marks the first time the idiom "here be dragons" appeared on a map. It was written in Latin' Latin' hic sunt dracones."

This Weeks Google Question:

What is a "smart ring"

We Hold Up in Prayer
Our Homebound Members,
Our Grieving Members,

The Families of
Ronnie Murr, & Groome Fulton
Our Recovering Members
Charles Riehs, Carol Pierce,
JD Dobbins, Linda Embler,
Nancy Blair, & Anne Compton

There is an Artist in Everyone~Find Yours

Keep Practicing . . .

3 Point Perspective

Step 2:

To begin, draw a line anywhere you'd like within the triangle toward VP3. It doesn't have to be vertical. You can make this line any length as well. It can end before it reaches VP3 so long as it will end up there if extended.

Step 3:

Draw lines from both ends of this line toward both of the horizon VPs, just as you would in a two-point perspective drawing.
