

The Friendly Bulletin

Published by the High Point Friends Meeting since 2020

Home Edition

Week of June 5, 2022

Vol. 114

We have decided to continue this Bulletin for a while because many of us are still at home.

Some Things to Try

Walk the Dog(s)

Wash the dog(s)

Be grateful you can see

Water the plants

De-clutter one area

Find a new Hot weather food recipe

Fire up the grill

Sweep the outside area

Sit down and rest for ½ hour

Make some Lemonade

Don't forget your 15 minutes of Sketching

Google ART Question

What skills are needed for realism in art

The Funnies/Did You Know

Dussehra

Is a yearly festival in India since the 17th century celebrating the triumph of Good over evil, light over darkness, and wisdom over ignorance.

The Pattern

on each dog's nose is unique, just like a person's fingerprint.

Dogs Dream.

Their brain activity during sleep is similar to humans, although larger breeds do not dream as much as smaller dogs.

The first

seeing-eye dogs were trained during the 1750s in Paris, France. The first training manual for guide dogs was published in Vienna by Johann Wilhelm Klein in 1819.

Ailurophilia

Is a term for the Love of cats, which comes from a Greek term.

This Weeks Google Question:

What, and how old, is the largest plant on earth ?

How to make Hummingbird Water

To make your own hummingbird nectar, you'll need to mix **one part** refined **white sugar** with **four parts** warm tap **water** until the sugar is dissolved. Fill your hummingbird feeder with the cooled sugar water and place it outside. Any extra sugar water you make can be stored in a refrigerator until it's time to refill your feeder.

There is an Artist in Everyone~Find Yours

Keep Practicing . . .

Step 4:

To determine where your shape ends in space, draw lines from VP3 through both sets of lines receding toward the two horizon VPs.

Step 5:

Draw lines from the back corners toward the opposite horizon VPs and you've completed a simple shape in three-point perspective. You can erase any construction lines as needed.

From there, it's easy to explore making more complicated shapes, so long as you remember that all lines should recede toward one of the three VPs.

Tip: By constructing your vanishing points outside your picture plane, you can easily avoid the problem of accidentally drawing outside the triangle.

There are a few ways to do this:

- You can tape down your paper to keep it stationary, then place pieces of tape on your work surface outside of your paper to locate your VPs.
- Or you can keep your VPs on the page, place a rectangle within the triangle and only draw within that rectangle. Later, you can crop your image to the size of this smaller rectangle.
